Chennai, TamilNadu - 600043

EXPERIENCE

• Menmozhi Technologies

Aug 2023 - Sept 2023

Data Science Intern

Trichy, TamilNadu

- Developed an Automated Interview System leveraging OpenAI's LLM, reducing resume analysis time by 95% and streamlining candidate evaluation..
- Created a custom question generator that improved interview question relevance by 99%, significantly optimizing the interview process.
- Developed machine learning models to assess candidate performance against predefined criteria, enhancing evaluation accuracy and efficiency.

EDUCATION

• Vellore Institute of Technology

Aug 2021 - May 2025

BTECH - Computer Science with Specialization in Artificial Intelligence and Machine Learning

Chennai, India

- GPA: 7.90/10.00

• Vels Vidyashram

June 2021

Higher Secondary Education

Chennai, India

- Grade: 86.8%

PROJECTS

• Resume Builder: [Gen AI powered application]

Oct 2023

Tools: [Python, Reactjs, GPT - 3.5]

- Developed a Generative AI-powered tool to streamline resume creation, reducing drafting time by 90%.
- Improved resume effectiveness, boosting job seekers' chances of being hired by 90%.
- Enabled personalized resume generation tailored to user-provided data, enhancing customization.
- Applied advanced algorithms to analyze user input, delivering optimized and relevant resume suggestions.

• Language Detection and Summarization for Multilingual Content

March 2024

Tools: [Python, Deep Learning, BERT, GPT]

- Developed a system that automatically identifies the language of a given text and generates accurate summaries in the same language.
- Utilized deep learning models for language detection and transformer-based models such as BERT and GPT for summarization.
- Processed multilingual data to help users efficiently grasp key information from diverse sources.
- Developed a seamless integration component for easy compatibility with multilingual content management systems.

• To Do List : [Web Application]

Jan 2024

Tools: [Html, CSS, JavaScript]

- Developed a task management web application featuring task filtering and local storage, boosting task completion rates by 95%.
- Optimized the user experience with an intuitive and user-friendly design.
- Ensured task persistence across sessions by leveraging local storage, allowing users to seamlessly manage tasks over time.

SKILLS

- **Programming Languages:** Python, Java
- **Web Technologies:** HTML, CSS, Javascript, Reactjs
- **Database Systems:** SQL
- **Data Science & Machine Learning:** Tensorflow, Pytorch, Keras, NLP, LLM, AI/ML, DL
- **Cloud Technologies:** GCP
- **Version Control and CI/CD:** Git, Github
- **Framework & Libraries:** Numpy, Pandas, Matplotlib, Seaborn, Scikit-Learn, Power BI
- **Other Tools & Technologies:** Visual Studio Code (VS Code), Google Colab, IOT, MS Office

LEADERSHIP EXPERIENCE

- **Management & Operations** March 2023 - Dec 2023
Iothnic, VIT 
 - Led a team in organizing and conducting hackathons and ideathons, fostering innovative thinking and collaboration among participants.
 - Drove participation in an electronics workshop on ESP32, improving technical proficiency and hands-on skills for over 50 members.
- **Marketing** Aug 2022 - Oct 2022
Biosphere, VIT 
 - Led efforts in organizing tree plantation drives, enhancing local biodiversity and fostering environmental awareness within the community.
 - Coordinated cleanup drives in partnership with local organizations, contributing to significant waste reduction and promoting sustainable practices.

CERTIFICATIONS

- **Udemy - Python Developer** Mar 2023
- **Cognizant - AI/ML/DS** Jul 2024
- **Engineer with Data in Google Cloud** Oct 2021
